NOTE: PLEASE NOTE THESE ARE ESTIMATES - loadability can vary. Please list in **sequential order** on your PO the prioritization of your needed materials. For example, if you need 801 the most, please list it first on your PO and if 401 is the least needed item, list it last. We will process and load the truck in this order. Please list **"must have"** next to material that cannot be shorted and entire amount is needed on the truck. If your truck is not full, please state **"filler"** next to the material used to fill your truck with no space. If your truck is full, please also list "shorter" next to that material so we know the priority of material.

NOTE: Values will change on individual shipments. Chart assumes **one width and one style** in entire shipment. Amounts are **ESTIMATED** and vary due to roll diameter, product mix and container size variation, as well as customer loading instructions.

NOTE: PLEASE NOTE THESE ARE ESTIMATES - loadability can vary. Please list in **sequential order** on your PO the prioritization of your needed materials. For example, if you need 801 the most, please list it first on your PO and if 401 is the least needed item, list it last. We will process and load the truck in this order. Please list **"must have"** next to material that cannot be shorted and entire amount is needed on the truck. If your truck is not full, please state **"filler"** next to the material used to fill your truck with no space. If your truck is full, please also list "shorter" next to that material so we know the priority of material. Any special requests (i.e. 3" clearance from ceiling required, etc.) will also change loadability.

NOTE: Values will change on individual shipments. Chart assumes one width and one style in entire shipment. Amounts are **ESTIMATED** and vary due to roll diameter, product mix and container size variation, as well as customer loading instructions. Propex will not honor deductions taken or claims made for deviations from the published quantity guidelines.
